

MILLS FSM

For medium and fine grinding of abrasive materials

MAIN MATERIALS

Alumina
Bauxite
Fireclay
Feldspars
Magnesite
Olivine
Limestone
Glass

APPLICATION SECTORS

Mining industry
Ceramic
Chemistry
Refractory

ADJUSTMENTS GRANULOMETRY

Mill FSM can be equipped with static or dynamic classifier, with pneumatic feeding. It can work in the grinding closed circuit with recycling of the "oversize" material. To obtain some products (0.1-0.4mm) it's provided the use of vibrating screens inside in the grinding circuit.

MODELS

MODEL	CAPACITY Kg/h	POWER kW	CLASSIFIER Model W
FSM 550	100-1.000	15	8-10
FSM 1000	400-3.500	45	12-14
FSM 1300	800-7.000	75	16-18
FSM 1500	1.500-13000	110	18-20
FSM 2000	3.000-26.000	200	22-24
